

Do you ever have to file returns from previous tax years?

If you have ever had a client who needed to file a tax return years and years after the deadline then you know how frustrating it can be to access the correct forms from that year.

The *CANTAX Archive 2010 Edition* allows you up to 13 years of CANTAX's T1, T2 and FormMaster software. This means when you need to review data files from a previous year or you need to prepare a late return, you've got the versions you need at your fingertips.

The *CANTAX Archive 2010 Edition* can produce the following returns:

- T1 returns for 1997 to 2009
- T2 returns for corporations with taxation years beginning after December 31, 1994 and ending on or before October 31, 2009
- T3 returns (included in FormMaster) for 1999 to December 31, 2009

In addition to the complete online help file included with each version, information is also provided about the late filing requirements for prior year returns.

All archived CANTAX programs are the originals, guaranteeing the authenticity of the tax calculations as well as full compliance with the relevant government filing requirements of the day.

Order you copy today! CDs will be shipped in July 2010.
